Select myDixie or Faculty & Staff then Banner Links
Click on “Self-Service (PROD)”
Type in your User ID (Employee ID#), and your PIN.

(Business Services will notify you regarding your PIN for production use after you have completed and turned in a “Banner Finance Access Request” form.)
Navigation/Tips for Getting Around

- Tab or use the mouse to click between fields (do not use the enter key).

- Do not use the browser “back” button.

- Be aware that whenever you click on a button to perform an operation (i.e., submit, validate, etc.) you will be taken to the top of the screen. You may have to scroll down to see the information.
Additional Tips

Wild card (%) proves to be very useful when you are looking for account codes that all start with the same number. Example –

![Index Code (i.e., ABC100) field with 7% entered]

Clicking on the Index Code button will bring up a menu allowing you to use the wild card to search for Index Codes (for example BUS% will show all Index Codes beginning with BUS). Change the maximum rows to return more than you expect to be retrieved. Then “Execute Query” (This can also be used with Account & Organization Codes).
Main Menu

Click on Finance (either option)

If you ever need to change your PIN or your security question, you can change them through the “Personal Information” menu.
Finance Main Menu

- Check balances & other information regarding your financial accounts
- View current encumbrances to your accounts (i.e. Purchase Orders)
- View completed and approved documents
Select Query Type

Allows you to review budget information by account code for the Fiscal Period and Year to Date by: Specific FOAPAL/Index values, Specific Organization, All Organizations, Grant, Fund Type, Account Type, or Revenue Account Codes.

Allows you to review budget information of organizations for the Fiscal Period and Year to Date by: Hierarchical Structure, Specific Funds, High-level Organizations, Accounts, Programs, Fund Type, Account Type, or Revenue Accounts.

Gives you the overall budget status (total expenditures and balance). It will not give you a net balance for any particular budget category (e.g., current expense, travel, etc.). It will not allow you to get detail on any particular entry.
Budget Quick Query - Required Fields

Enter Fiscal Year, D (In Chart of Accounts), & Index Code

Only check “Include Revenue Accounts” if there is actual revenue (auxiliary, course fee, etc.).

Enter a name to save the query (do not check “Shared”). You can repeat query using this name in the future.

Click “Submit Query”, the “Index” code will be cleared and the “Fund,” “Organization,” and “Program” fields will fill in.
Budget Quick Query - Submit

Click “Submit Query” again and your report should be ready.
“Adjusted Budget” is your original budget plus/minus any budget adjustment(s) (i.e., carry forward and budget transfers).

“Year to Date” shows the expenditures since the beginning of the fiscal year.

“Commitments” show the total of all funds set aside for requisitions and purchase orders.

“Available Balance” shows remaining budget available.
If you are not paying for salaries (account codes between 610000 – 650000) with this budget, this is your current budget balance. If you are paying for wages you will need to calculate your current budget balance by adding together all available balances or by following the instructions on performing a “Budget Status by Account” query.
Budget Status by Account will give you the overall budget status (total expenditures and balance) and allow you to check the detail for all expenditures. This is the best option to use to check your expenditures.
Budget Status by Account Create Query

Select the columns you want to show on your query then click continue:

- "Adopted Budget" is your original budget (the budget you started with at the beginning of the year).
- "Budget Adjustment" show carry forward and budget transfers.
- "Adjusted Budget" is your original budget plus/minus carry forward and budget transfers.
- Do not select "Temporary Budget" or "Accounted Budget" (These are not used).
- "Year to Date" shows the expenditures since the beginning of the year.
- "Encumbrances" shows the funds set aside for Purchase Orders (items ordered but not yet invoiced).
- "Reservations" shows the funds set aside for Requisitions that do not yet have a Purchase Order.
- "Commitments" shows the total of encumbrances and reservations.
- "Available Balances" shows remaining budget available.
Budget Status by Account Code

Fill in Required Fields

**myDIXIE**

**Personal Information**  **Alumni and Friends**  **Student**  **Financial Aid**  **Employee**  **Finance**

Search: [Go]

---

If Grant information is queried, all retrieved data is Grant Inception to Date. Otherwise, all information retrieved is through the Fiscal Year to Date. For a Budget Query to be successful, a user with Fund/Organization Query access must enter a value in either the Organization or Grant fields as well as the Fiscal Period, Year and Chart of Accounts fields.

You may select a Fiscal Period and Year to compare to the required Fiscal Period and Year. With this selection, all the details that are retrieved will be placed next to the corresponding comparison fiscal period.

Include Revenue Accounts

Save Query as: Finance User by Account

Submit Query
Budget Status by Account Code Query

Enter 14 in “Fiscal Period” to select the beginning of the fiscal year to the current date. To select the beginning of the fiscal year to a specific month, enter 1 = July, 2 = August, 3 = September, etc.

Only check “Include Revenue Accounts” if there is actual revenue (auxiliary, course fee, etc.).

Enter a name to save the query (do not check “Shared”). You can repeat query using this name in the future.

Click “Submit Query”, the “Index” code will be cleared and the “Fund,” “Organization,” and “Program” fields will fill in.
Budget Status by Account Code Report

If a value is underlined, you may click on it to see more detail.
Use “Download” to export the data to a file that can be brought into a spreadsheet.
Open the File

Note: “All Ledger Columns” include all of these items: Adopted Budget; Budget Adjustment; Adjusted Budget; Temporary Budget; Accounted Budget; Year to Date; Encumbrances; Reservations; Commitments; and Available Balance.
Budget Status by Organizational Hierarchy

Choose Query type then click on “Create Query”.
Budget Status by Organizational Hierarchy

Select the columns you want to show on your query then click continue:

“Adopted Budget” is your original budget (the budget you started with at the beginning of the year).

“Budget Adjustment” show carry forward and budget transfers.

“Adjusted Budget” is your original budget plus/minus carry forward and budget transfers.

Do not select “Temporary Budget” or “Accounted Budget” (These are not used).

“Year to Date” shows the expenditures since the beginning of the year.

“Encumbrances” shows the funds set aside for Purchase Orders (items ordered but not yet invoiced).

“Reservations” shows the funds set aside for Requisitions that do not yet have a Purchase Order.

“Commitments” shows the total of encumbrances and reservations.

“Available Balances” shows remaining budget available.
Enter Fiscal Year, D (In Chart of Accounts), & Index Code

Enter 14 in “Fiscal Period” to select the beginning of the fiscal year to the current date. To select the beginning of the fiscal year to a specific month, enter 1 = July, 2 = August, 3 = September, etc.

Leave “Commitment Type” set at “ALL”

Enter your Index Code in the “Index Code” Field

Enter a name to save the query (do not check “Shared”). You can repeat query using this name in the future.

Click “Submit Query”, the “Index” code will be cleared and the “Fund,” “Organization,” and “Program” fields will fill in.

Select “Include Revenue Account” only if your account has actual revenue (auxiliary, or course fee account).
Budget Report by Organizational Hierarchy

Use the View Pending Documents button to display unposted documents in process that are excluded from the Budget Status Report. Also select the View Pending Documents button to view a summary of the available balances used for non-sufficient funds (NSF) checking.

Click on Organization to get to the next level of detail.
Budget Report by Organizational Hierarchy

Click on 70 "Expense"

Account Type:
- **50 Revenue** – shows status of funds deposited into the account as revenue.
- **60 Labor** – shows status of funds budgeted/spent on wages and salaries
- **70 Expense** – shows status of funds budgeted/spent on operational costs (current expense and travel).
- **80 Transfers** – NOT APPLICABLE (used only by Accounting Services); does not show budget transfers.
Operational Budget by Organizational Hierarchy

This view shows the balance in each operational budget category.

Click on any of the “Account Type” links to obtain more detail. For example, clicking on 71 will provide detail about your current expense budget and expenditures.
Encumbrance Query

Allows a user to view encumbrances that currently exist for specific index code.

Click on Encumbrance Query
Encumbrance Query

Enter 14 in "Fiscal Period" to select the beginning of the fiscal year to the current date. To select the beginning of the fiscal year to a specific month, enter 1 = July, 2 = August, 3 = September, etc.

Leave "Commitment Type" set at "ALL"

Enter a name to save the query (do not check "Shared"). You can repeat query using this name in the future.

Click "Submit Query", the "Index" code will be cleared and the "Fund," "Organization," and "Program" fields will fill in.

Select “Include Revenue Account” only if your account has actual revenue (auxiliary, or course fee account).
Reports will show a list of all the documents creating an encumbrance against the specific index code. To view one of the documents, click on the document code.
Encumbrance Documents

Clicking on the “Document Code” will bring you to the following report. Click on “Document Code” again.
You can see the information detail on the Document Code.
To display the details of a document enter parameters then select View document. To display approval history for a document enter parameters then select Approval history. If you do not know the document number, select Document Number to access the Code Lookup feature. This enables you to perform a query and obtain a list of document numbers to choose from.
